

# GOVERNMENT NEWS

Let's grow South Africa together

## GOVERNMENT MESSAGES ON:

### Economy

- Government has introduced a number of policies and programmes that will promote economic growth and reduce inequality.
- Interventions into rebuilding the economy focuses primarily on creating jobs, offering opportunities for entrepreneurship and attracting more investors.
- Through partnerships for growth with business, labour and the civil society, we will restore confidence.
- The reconstruction of our economy is a shared responsibility and we call on all citizens to play their part by purchasing locally manufactured goods.
- South Africa is an attractive investment destination and is open for business.

### NSFAS

- Government remains committed to ensuring that qualifying students are supported through higher education.
- NSFAS is going to continue funding returning students who meet academic and funding criteria, so they can continue their studies.
- The Minister of Higher Education, Science and Innovation will hold a detailed media briefing on the start of the 2021 academic year.
